Subject: Microsoft Settlement

Your Honor:

this Settlement offered by the DoJ is a disgrace to Justice in the US, and it will besmirch whatever was left of the image of impartial justice after the arrival of "barely President" G.W. Bush. In most their endeavours until now, his administration has consistently betrayed their oath to protect the Constitution, and has certainly been the the worst administration since the good bad days of Nixon's. I dare hope that the independent Judiciary will not buckle under their relentless pressure. Please be true to the ideals of Justice that certainly you held once, and do not unleash a rogue Monopolist to continue its depredations on the American future.

Sincerely yours,

Eric C. Forat
